PONG

Software Golden Oldies Volume 1 - Macintosh Notes.

To run the program: Turn your Macintosh on and insert the Golden Oldies Disk

If your machine is already running, insert the Golden Oldies disk. With the mouse, select the Golden icon from the screen.

Your Macintosh version of Software Golden Oldies operates as described in the booklet except for the following

All menu selections are made either from the mouse, or from the Command Key.

In the LIFE program:

1. The LIFE screen size is 34 X 64

2. Select SAVE AS to save a population under a name of your choice.

3. Selecting SAVE to store a population under the name you are currently using saves you the step of retyping an old name for a new population. (See also NEW.)

4. The NEW selection clears the screen and any name you are currently using for storing populations

5. The CLEAR selection clears the screen and does not affect any name you may have chosen for storage

6. To populate cells in the LIFE editor, point the mouse to any location. If that cell is off you will be in INSERT mode for as long as the button is depressed. If that cell is on, you will be in DELETE mode for as long as the button is depressed.

Pong may be played using the Keyboard. Activate this feature from the SET CONTROL Menu. The keys which are activated are listed under HELP in the Pong Menu

The Panic Button is available in Life and Pong through the Shift category on the menu bar.

The Escape key referred to in the booklet is QUIT under the EDIT category on the menu bar in Life and Pong

HAVE FUN !!!
